## Sid 8003 Heatgun

- Power: 1800 Watt motor
- 3 heat temperature control (50°C • 80°C • 170°C) for a wide variety of applications
- Constant heat control maintains precise temperatures – heating switches off automatically if temperatures get too high
- Ceramic core protects the heating element for longer tool life
- D.C. low voltage motor for long life time
- Well-engineered fan blade design for efficient airflow
- 3-speed power setting (550–500 1/min)
- Ergonomic design for effortless operation
- Hooker switch for comfortable, hands-free use

### Specifications

Rated Power	1800 W
Temperature setting 1	50°C
Temperature setting 2	80°C
Temperature setting 3	170°C
Air flow setting 1	290 l/min
Air flow setting 2	250 l/min
Air flow setting 3	540 l/min
Constant heat control	Yes
Stationary use	Yes
Removable heating	Yes
Hanging hook	Yes

Hanging hook for easy storage

Special design for placement on workpiece

### Standard equipment

- Glass protection nozzle
- Flat nozzle
- Radiation nozzle
- Reflector nozzle
